

ESA-BIC Nord France Brittany, France

Space is part of the S3 in maritime, telecommunication and environment axes

Key players : GIS BreTel, technopoles, research labs...

Strengths of Bretagne : Emergys, many companies using space technologies

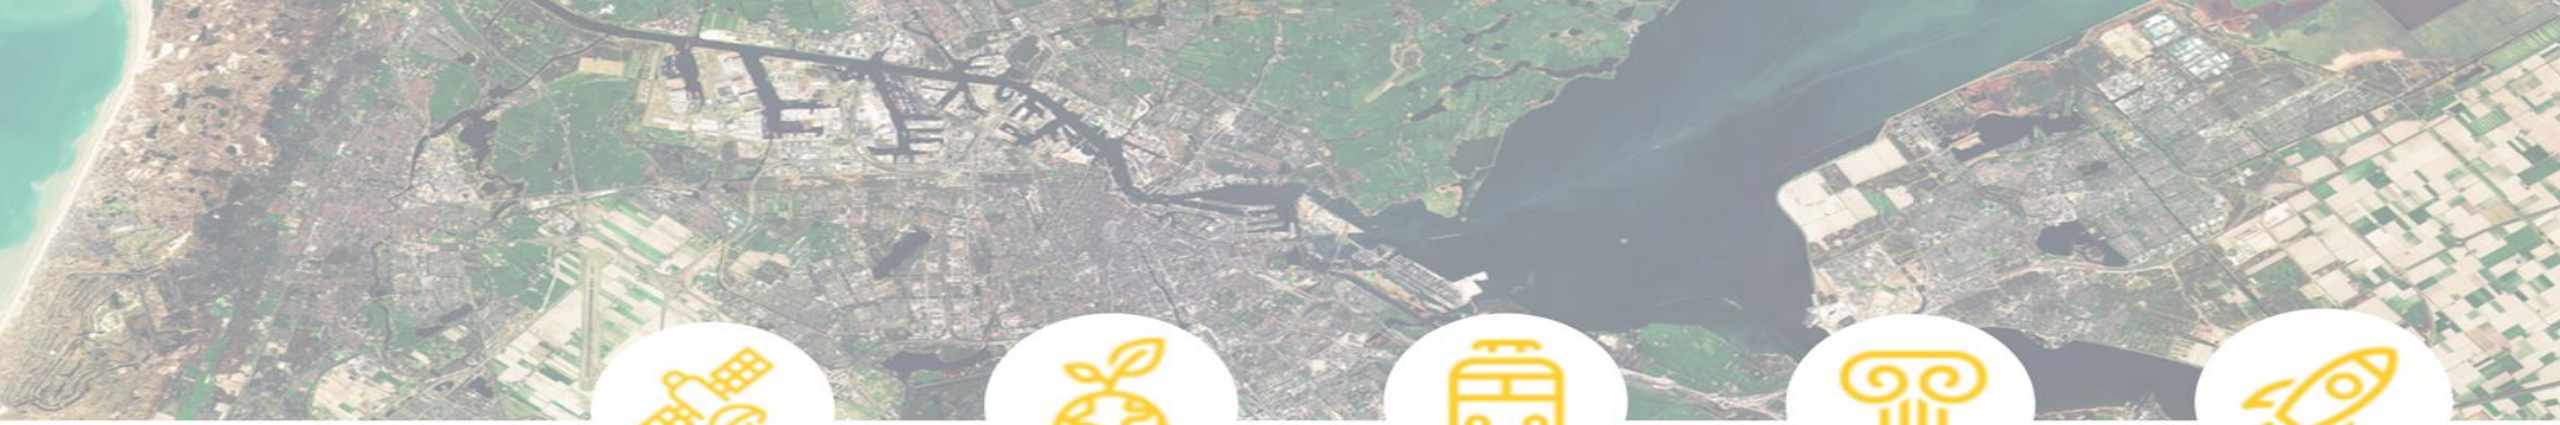

Young ESA-BIC (2018)

Located in 6 regions

Strong links with existing incubators

Already 9 incubations

Bretagne is not known as a spatial region.

⇒ Sourcing challenge for companies not aware that they are space-connected

Need of this link ESA-BIC – incubators

Discussion welcome on :

⇒ How to make local authorities space aware?

⇒ Practice sharing on the maritime side
