

ESA-BIC
Wallonia /Belgium

- 1999 : creation of WSL (Wallonia Space Logistics). The first incubator in Belgium dedicated to support the creation of start-ups using space technologies
- +/- 30 start-ups created since 20 years.
- 2012 - 2018: labeling of WSL as “ESA BIC Wallonie Redu” (# 12)

- 2018- 2022 : creation of an “extended tool” to speed up the creation and the development of start-ups.
 - WSL as the Incubation tools for start-ups
 - CSL as Technological support for start-ups
 - IDELUX as regional tool for hosting and to support star-ups for bidding as ESA BIC
 - SKYWIN as cluster to support the integration of the start-ups in the regional, national and international economical environment

- 2019, with the support of the regional government, creation of a 20 MEuros “space fund”
- Part of this fund (2 to 4 MEuros) is dedicated to scale-up the start-ups who have reach TRL6 and CRL6 minimum
- in addition of the ESA BIC process (50 KEuros/start-ups)
