

WORKSHOP “BETTER SKILLS FOR SPACE GEO-INFORMATION AND COPERNICUS USER UPTAKE” – DISCUSSING THE EO4GEO SECTOR SKILLS STRATEGY AND ITS RECOMMENDATIONS” (French Edition)

7-8 October 2019

Hosted by AEROCAMPUS Aquitaine – Latresne, Nouvelle-Aquitaine, France

- **Objective:** Discussing the EO4GEO Sector Skills Strategy and its recommendations with representatives from companies, regional institutions, cluster organisations, Education and Training providers
- **Outputs:** concrete examples of the benefits of the use of Copernicus for local communities; in-depth discussion about skills needs and their evolution
- **Interest for AEROCAMPUS Aquitaine:** increased visibility at EU level; paving the way for the ASSETS+ Project (Sector Skills Alliance in Defence)
- **Crucial importance of Education and Training,** especially when facing the economic crisis: investing in skills is a key factor for recovery!
