

Nereus

Webinar Copernicus4Regions
October 6th 2020

Silvano De Zorzi
Veneto Region

REGIONE DEL VENETO

Veneto in the Nereus network

Veneto has been actively participating in the Nereus network since 2007

It stands out among the active regions because it is a member of:

- * GNSS coordinator of CISAS (Prof. Caporali);
- * GMES/Copernicus subgroup coordinator Land Applications (Dott. De Zorzi);
- * TSE (Technologies from Space Exploration).

REGIONE DEL VENETO

Associate members within Veneto Region :

- * CISAS: Interdepartmental Center for Studies and Spatial Activities,
- * Consortium for the Coordination Management of Research Activities

Performed activities

* Dr. **Silvano De Zorzi**:

- * is an effective member of the Standing Committee (scientific body supporting the Board of Directors of the Association);
- * is the coordinator of Land Applications (working group for Earth observations);
- * was a Project Team member for the NEREUS / ESA project "Improving Copernicus take-up among Local and Regional Authorities via dedicated thematic workshops“
- * Reviewer in the Copernicus4Regions project.

Performed activities

Conventional Data Access Hubs

Copernicus4Regions

- * A selection of user stories representing the steadily growing use of Copernicus in regions of Europe
Aimed at local and regional authorities, Copernicus4Regions describes with concrete user experiences how Copernicus is increasingly supporting the public sector in Europe.

Copernicus4Regions

- * I was motivated to participate as a reviewer to be part of this very interesting project;
- * This experience was wonderful for the interesting articles that I had to analyze;

The material was of the highest standard, I appreciate all the stories and I can say that the publications is also a guide to give ideas to LRAs;
