

NEREUS: Horizon Europe Webinar
23/4/2021

Barbara Jiménez
National Contact Point Space (Germany)

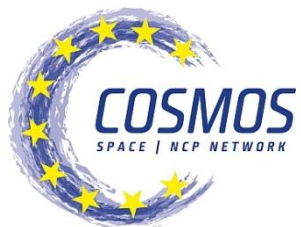

Content

- National Contact Points (NCPs)
- Facts about COSMOS2020plus
- Objectives of COSMOS2020plus
- COSMOS2020plus: Your benefit

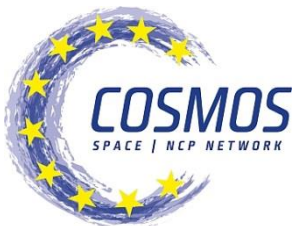

National Contact Points (NCPs)

- Essential part of the EU Research & Innovation programmes
- Professionalised consultation and support service
- On-site information and support in native language for free
- Officially nominated to the European Commission by all Member States and Associated Countries for defined parts of the EU R&I programmes
- Officially named by the European Commission
- Nationally funded and organised since it's a national activity
- EU support for specific transnational activities (NCP networks)

Facts about COSMOS2020plus

- **COSMOS2020plus** stands for “Continuation of the Cooperation Of Space NCPs as a Means to Optimise Services under Horizon 2020”
- 22 Space NCPs from 22 countries are partners with some 15 more Space NCPs associated
- Coordinator: German Aerospace Center DLR (DE)
- Start: June 2019
- End: 31 December 2021
- First Network project started in 2008; Forerunners are COSMOS/COSMOS+/COSMOS2020 ended March 2012/November 2014/May 2019

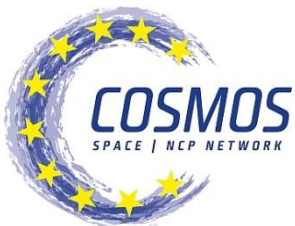

Find more information on www.ncp-space.net

Objectives of COSMOS2020plus

Networking of Space NCPs for:

- improved information flow (in and out)
- improved project partner search support
- additional services: Website, Newsletter, Events
- smooth transfer of services from Horizon 2020 to Horizon Europe
- supporting smaller and new EU member states / FP associated countries
- more balanced and overall improved NCP service
