- ❖ Regions are a key end-user group (almost 90% of the service are related to the public sector);
- ❖ Regions are responsible for innovation, research and SME policies and programs as well as regional policies (structural funds, S3-strategies);
- ❖ Regions are a privileged scale to identify and define societal needs and growth opportunities for space;

- ❖ Regions are the unique level to link space with territorial and regional development challenges;
- ❖ **Regions are able to channel space** as an enabler into a wide range of non-space policies;
