The skills, the mission, the focus

Skills

- Aircraft Design, Manufacturing & Support
- Aerostructures, components, systems
- Propulsion systems and components
- Interior equipment and furnishing
- Landing systems
- Electrical/electronic components
- Avionics
- Machinery, tools and mechatronics
- Special processes and materials
- Design, analysis, engineering
- UAV/UAS/OPV
- Logistics Support / MRO
- Simulation, testing and certification
- Space systems
- Orbital infrastructures
- Payloads
- Moon/Mars exploration infrastructures
- Scientific Satellites
- Ground systems and equipmen

Mission

- Identity
- Interface with institutions and third parties
- Aggregation for integrated projects
- Promoting innovation
- Networking
- Promoting education
- Active in the EC Expert Group,, in ENDR , in ECCP ,inter alia.

Focus

- 6th Gen. defence A/C
- Systems of systems
- Innovative propulsion
- UAV
- Advanced Urban Mobility
- Sustainable mobility
- Big Data
- Man-machine interface
- AI
- Moon and Mars Exploration
- Robotic exploration of solar system
- Lunar Gateway
