QnA

Closing

About: This 6th infosession on education/training in the space sector focuses on the need for skills on space policy and strategy in Europe. Given the new space policy developments and the EU Space Strategy for Security and Defence, skilled workforce is needed to path the way for an independent and autonomous Europe in space.

Target group: Universities/research centres which are NEREUS-Associate members, Universities based in NEREUS-members regions, other Universities interested in education/training, cooperation partners, NEREUS-regions who hosted the E04GEO workshops in the past, all NEREUS-members interested in the education/training regarding the use of space technologies;
