# THE SAFETY AND SECURITY DIMENSION OF SPACE VII: Humanitarian aid

**Monday, 04th March 2024, 10 - 11.30h**

The session is going to present initiatives and user cases where satellite technologies contribute to support humanitarian aid. The discussion of the session will center around the question how the application of space technologies for purposes of humanitarian aid contributes to safety/security/resilience of societies. Previous sessions are documented on the NEREUS-website: <https://www.nereus-regions.eu/category/events/defence/>

## **Programme Monday, 04th March 2024, 10 - 11.30h (moderated discussion):**
