- Initial Q&A;
- Baden-Württemberg Research and Academic Community Introduces Itself by Herr Prof. Dr.-Ing. Institutsdirektor, Institut für Luftfahrtantriebe ;
- Best Practices / Regional Testimonials: Basilicata (Nicola Pergola, CNR-IMAA), Emilia-Romagna (Adriano Gilli, Regional Administration), Occitanie (Benoît Mingam, Regional Administration), Veneto (Carlo Masetto, Cartography Department);
- Follow-up Q&A / Discussion
- Closing / Outlook by Roya Ayazi

OBJECTIVES & TARGET AUDIENCE

The webinar aims to:

- Introduce NEREUS and its relevance for science and research in BW and other partner regions,
- Introducing the research and academic community of BW to NEREUS partners
- Showcase how other member regions use the platform to advance scientific cooperation,
- Spark ideas for new formats of collaboration between NEREUS and Baden-Württemberg's academic/research sector,
- Inform the role and specific features of NEREUS as the only network of European regions in the space sector.

The primary target audience includes:

- Universities and research institutions in Baden-Württemberg working on space-related topics or interested in European cooperation,
- NEREUS community
- Students and early-career professionals seeking insight into European space networks and professional development opportunities.
