

SPACE SUMMIT FOR A RESILIENT FUTURE

October 27-28 2026

Toulouse, Occitanie

April 2026

Organized by

NOVASPACE

Supported by

Concept & themes

The “Space Summit for a Resilient Future” is organised by Novaspace with the support of the Occitanie Region.

The event will take place over two days (+ one day of learning expedition) in Toulouse, on October 27 and 28 2026.

It will bring together global leaders to explore how space can strengthen resilience in the face of major societal crises (natural disasters, infrastructure failures, technological or regulatory changes) and how the space sector adapts and collaborates to remain resilient.

Format
